## The Future is Now

# What is Transitional Care?

Transitional care refers to patients who predominantly require rehabilitation services following a short stay in a hospital

- Transitional care is licensed as a skilled nursing facility (SNF)
- Transitional care provides for private accommodations in a hospitality like setting
- Average length of stay is approximately 20-30 days as compared to a traditional SNF
- State-of-the-art medical management technology, advanced therapy programs, and medically supported care
- Resident / guest retention for the City of Aurora

## Site Selection

# Why Aurora?

#### Location

- ♦ The proposed site under contract is located along the New York corridor
- ♦ Well balanced within the community and adjacent neighbors
- ♦ Excellent access to local skilled employees

#### **Proximity to Providers / Referral Sources**
