Aurora Municipal Airport
Mrs. Penesis
43W636 US 30
Sugar Grove, IL 60554

Mrs. Penesis,

We would like to re-locate our company base of operations to the Aurora Municipal Airport so that we can provide better service to our current customer base. We only provide aircraft maintenance and other related services to our existing customers and are not looking to provide on-call services to the general airport user group so there would be no negative financial impact on any existing Aurora Municipal Airport based businesses.

Please let me know what information you need from me to move this process forward. We look forward to establishing a long-term, working relationship with the airport and assisting with its future growth by using our established reputation to attract additional jet aircraft operations and business to the airport.

Sincerely,

A handwritten signature in black ink, appearing to read "Luke Grotto".

Luke Grotto
Vice President
