Subject: Taqueria Aurora

Dear Alex,

Thank you for taking time to review Taqueria Aurora's liquor license application with me today. I understand they are applying for a distance exception under the new ordinance. Using Google Earth I have measured the distance from the front door of the restaurant to the closes point of McCleery School to be over 500 feet. I also understand that the request is to serve beer and wine on premise only with no bar or take-out service.

Based on the information stated above I would be in favor of granting the requested distance exemption.

Thanks for your help in reviewing this case,

Bill
