SUBJECT:

An Ordinance Establishing a Conditional Use Planned Development, Approving the Liberty Meadows Plan Description and amending Chapter 49 of the Code of Ordinances, City of Aurora, by modifying the zoning map attached thereto to an underlying zoning of R-4A Two-Family Dwelling District and OS-1 Conservation, Open Space, and Drainage District for the property located at the southern end of Wolverine Drive (PT Land, LLC - 22-0223 / NA19/1-22.067-Rz/CUPD/Ppn/Psd - JM - Ward 7)

PURPOSE:

The Petitioner PT Land, LLC is requesting the Establishment of a Conditional Use Planned Development, and to change the zoning district from ORI (C) Office, Research, and Light Industrial District with a Conditional Use to R-4A (C) Two-Family Dwelling District with a Conditional Use and OS-1 (C) Conservation, Open Space, and Drainage District with a Conditional Use District on the property located at the southern end of Wolverine Drive which includes a plan description to allow for

the development of 91 townhome units and associated stormwater facility.

BACKGROUND:

The Subject Property is currently vacant land with ORI (C) Office, Research, and Light Industrial District zoning.

The Petitioner is requesting the Establishment of a Conditional Use Planned Development, and to change the zoning district from ORI (C) Office, Research, and Light Industrial District with a Conditional Use to R-4A (C) Two-Family Dwelling District and OS-1 (C) Conservation, Open Space, and Drainage District with a Conditional Use Planned Development. The details of the request include a Plan Description that outlines specific requirements and allows modifications for the R-4A parcel, including setbacks, separations, density, and cul-de-sac length to allow for the development of 91 townhomes. The second parcel will have an underlying zoning of OS-1 for the stormwater detention facility. The developer will be responsible for reimbursing the city for work done to Wolverine Drive and to extend a sidewalk on the west side of Wolverine Drive to Liberty Street.

Concurrently with this proposal, the Petitioner is requesting approval of a Preliminary Plan and Plat Revision for Lot 2 of Liberty Street Business Park Subdivision and establishing Lots 1-21 of Liberty Meadows Subdivision for a Row Dwelling (Party Wall) (1130) Use. Wolverine Drive will be extended from its current dead-end south and east onto the site and ends with a circular turnaround. A westbound left turn lane will be added on Liberty Street at Wolverine Drive. The details of the request include the development of 18 buildings with rear-loaded garages containing a total of 91 units on 15.66 acres. The units range in size from 1,760 square feet to 2,080 square feet and contain three bedrooms. The buildings are 2 ½ stories in height in the front and 3 stories in the rear. Each unit has a two-car garage and two-car driveway with visitor parking available on the street. The homes sit perpendicular to the extended Wolverine Drive with private drive aisles extending from the road to the rear loaded garages. A sidewalk will be added on both sides of the road within the development. To the north of the townhomes will be the stormwater detention for the site.

The Plat includes the creation of Lots 1-21 of Liberty Meadows Subdivision with associated easements.

DISCUSSION:

Staff has reviewed the Rezoning and Conditional Use Planned Development petition and have sent comments back to the petitioner on those submittals. The petitioner has made the requested revisions to these documents and they now meet the applicable codes and ordinances.

The property abuts a warehouse to the north, open space/detention to the east, townhomes and sport fields to the west and a mixture of townhomes and vehicle repair, minor to the south. The Elevations will be approved at Final Plan but are provided for draft review to present the varied materials and elements being proposed to present an appealing façade.

Staff has the following comments regarding the Findings of Facts:

Conditional Use

1. The project will not be detrimental to or endanger the public health, safety, morals, comfort or general welfare as the proposed use is similar to the majority of the surrounding uses and it will improve a parcel that has sat vacant and neglected for decades.

2. The conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity or diminish or impair property values as the use is similar surrounding uses. The project is also mindful of not impacting the conservation easement.
3. The development will not impede the normal and orderly development and improvement of surrounding properties as it is a similar use, there is adequate parking, and the traffic study shows it will not impact traffic.
4. The proposal will provide adequate utilities, drainage, etc. as the proposed development will integrate well into the existing infrastructure, filling in the remaining holes.
5. The project does provide adequate ingress/egress. The proposed development will utilize the existing Wolverine Drive dead-end. The street will allow Liberty Meadows to access Liberty Street, a major collector. The design will continue the trend of not burdening existing residential neighborhoods with pass-through traffic. A westbound left turn lane is provided on Liberty Street to prevent any westbound back-up on the major collector. The Traffic Study provided stated that the roads and intersections will operate at acceptable levels of service.
6. The Conditional Use in all other respects conforms to the applicable regulations of the R-4A zoning district.

Rezoning

1. Staff has noted below the physical development policies that the proposal meets.
2. The proposal does represent the logical establishment of the requested classification in considering the existing area as the existing area has similar townhome uses and continues a trend of growing residential neighborhoods.
3. The proposal is consistent with a desirable trend of development in the area as it provides additional housing options in the area, it provides new development near existing residential, and encourages quality design.
4. The rezoning will allow for more suitable uses as it is similar to the majority of the surrounding uses.
5. The rezoning is consistent with the existing area as it brings additional residential housing options.

Public Input: Due public notice was given for the public hearing on this matter. As of the date of this memo, staff has received public inquiries requesting additional information on this petition.

POLICIES AND GUIDELINES:

The Staff's Evaluation and Recommendation are based on the following Physical Development Policies:

- 12.1(9) To guide development and redevelopment into energy efficient land use patterns;
- 11.1(3) To encourage new development contiguous to existing development;
- 21.1(2) To promote a wide variety of housing type; and
- 23.1(3) To encourage quality design and practicable innovations in both housing structures and site
