**PURPOSE:**

To accept the public improvements installed by the Developer of this project and to approve the establishment of the required, one year, 20% maintenance security for these improvements.

Based on our review and approved site inspection, it is recommended by the Engineering Division, that City Council accept the public improvements, as well as; require as a condition of this

acceptance that the developer submit the required one year maintenance security at a value of 20% of the original developments security.

**IMPACT STATEMENT:**

This action adds or replaces public infrastructure - utilities to various divisions for maintenance, including the Division of Water and Sewer Maintenance; the Water Production Division; the Street Maintenance Division; the Electrical Division; all of which have been apprised of these new or replaced utilities.
