SUBJECT:

Requesting approval to renew a 12-month agreement with AT&T for Intrastate services in the amount of \$172,440.00.

PURPOSE:

Attached is the contract for intrastate services on the City's Sonet ring. This contract establishes costs to provide intrastate calling rates for inbound and outbound calls at City locations.

BACKGROUND:

Currently City intrastate telephony services are provided by circuits from AT&T that terminate at APD, City Hall and two AT&T locations within the Aurora city limits. These circuits provide access to the Public Switched Telephone Network (PSTN) .

DISCUSSION:

This is not a change to services, but a change to the rates provided by AT&T. This represents a 49% increase to the rates supplied in the previous contract signed in 2022 (R22-232). Staff is requesting this one-year extension to allow for moving to more cost-effective Voice Over Internet Protocol (VOIP) solution.

Funds are available in 101-1280-419.44-01 - Telephone - for this purchase.

IMPACT STATEMENT:

Without agreeing to this contract and fees, the City would fall to retail rates for these services which are more than double the rates currently being quoted.

RECOMMENDATIONS:

Request the proposed resolution be adopted.
