SUBJECT:

An Ordinance Granting a Special Use Permit for a Cannabis Dispensing Facility (2115) Use on the Property located at 1415 Corporate Boulevard (NuMed Partners, LLC - 19-1104 / AU01/3-19.236-Su - TV - Ward 1)

PURPOSE:

The Petitioner, NuMed Partners, LLC, is requesting approval of a Special Use for a Cannabis Dispensing Facility (2115) use on property located at 1415 Corporate Boulevard

BACKGROUND:

On June 25, 2019, the Cannabis Regulation and Tax Act (P.A.101-0027), was signed into law by the State of Illinois, effective January 1, 2020. The Act legalizes the purchase, possession and private use of cannabis by adults 21 years of age or older for recreational use. The majority of the law pertains to the sales, processing, distribution, taxes and eligible users of cannabis. Subsequently, the Aurora City Council passed Ordinance Number O19-072 on October 22, 2019, requiring a Special Use permit for qualifying Cannabis Dispensing Facilities with the Special Use Permit being

permissible in the B-2, B-3, DC, ORI, M-1, and M-2 Districts and business area of PDD.

The Subject Property is currently an office building with PDD Planned Development District zoning, which is part of the Farnsworth International Planned Development District. Additional information on the legislative history of the property can be found in the attached Property Information Sheet.

The Petitioner is requesting approval of a Special Use for a cannabis dispensing facility. The existing building is currently divided into two separate unit spaces. NuMed Partners, LLC is proposing to initially occupy the one of the units, which is currently vacant. As the other unit becomes available the intent is that the dispensing facility will expand into the entire building.

DISCUSSION:

As part of the Special Use review, Staff reviewed the request per the requirements as stated in the Special Use section for cannabis dispensing facilities. These regulations are as follows:

- i. Facilities shall at all times comply with all requirements, rules and restrictions, including without limitation, geographic location restrictions, as set forth in the Compassionate Use of Medical Cannabis Pilot Program Act (IL Public Act 098-0122) and the Cannabis Regulation and Tax (IL Public Act 101-0027) or as modified by applicable law, and shall at all times comply with the terms and conditions of any special use permit that may be granted in the future.

The facility will need to comply with the requirement of the Compassionate Use of Medical Cannabis Pilot Program Act (IL Public Act 098-0122) and the Cannabis Regulation and Tax (IL Public Act 101-0027) in order to obtain a license with the State.

- ii. On or after January 1, 2020, no more than four (4) adult use cannabis dispensary special uses, may be established within the Aurora City limits. The City Council is authorized to evaluate and implement adjustments to the number of adult use cannabis dispensary special uses within the City in order to maintain public health, safety, and welfare as well as promote economic development. Such adjustments to the number of special uses shall be established via resolution. Any proposed changes shall start at the Building Zoning and Economic Development Committee.

Of the four cannabis dispensary special uses within the City, two (2) shall be reserved and issued for social equity candidates, in order to maximize the state legislature's intent of section 7-1, article h of the Cannabis Regulation and Tax Act. 410 ILCS 705/7.

Non-social equity candidates are required to meet the following requirements for adult use cannabis dispensary special use in order to promote public health, safety and welfare:

- a. Applicants must establish a minimum of two years of cannabis sales experience (either as a medical dispensary in Illinois, or as a recreational dispensary in another state).

NuMed Partners, LLC is submitting the application to the State as a social equity applicant in which 51% or more will be an equity holders and 51% of more of the current employees live in the Disproportionately Impacted Areas. In addition, NuMed has owned and operated three fully licensed medical cannabis dispensing facilities in East Peoria, Urbana, and Chicago. The first facility was open in 2016.

- iii. Facilities shall abut an arterial street as shown on the City of Aurora Comprehensive Plan. No more than one (1) dispensary shall be located on a single arterial. A dispensing facility may not be located within a mile and a half (1 ½) of a preexisting special use dispensing facility.

The proposed location abuts Farnsworth Avenue which is an arterial street and is not located

within a mile and a half (1 ½) of a preexisting special use dispensing facility within the city.

- iv. Facilities shall not be located within seven hundred and fifty feet (750'), measured from property line to property line, of a grade school, middle school, alternative school, or high school. The authorization of a special use for this purpose should not be affected by subsequent establishment of a school within the restricted area.

The facility is not located within seven hundred and fifty feet (750') of a grade school, middle school, alternative school, or high school.

- v. A facility shall not be located adjacent to a licensed day care facility. For the purpose of this limitation, in the case of a standalone building "adjacent" means physically abutting the lot, or in the case of a single structure containing multiple units comprising a shopping center or similar facility, in the unit directly adjoining a unit containing the licensed day care facility.

The facility is not located adjacent to a licensed day care facility.

- vi. No cannabis or paraphernalia shall be displayed or kept at the facility so as to be visible from outside the premises including but not limited to depiction on signage.

There will not be cannabis or paraphernalia displayed or kept at the facility so as to be visible from outside the premises.

- vii. Onsite Use Is Prohibited. No cannabis shall be smoked, eaten or otherwise consumed or ingested on the premises.

There will not be any onsite consumption of cannabis.

- viii. Facilities shall have operating hours not earlier than 8 a.m. and not later than 10 p.m.

The hours of operation will be from 8 am to 10pm.

- ix. Co-locations: The City may approve the co-location of a Cannabis Dispensing Facility with a Cannabis Craft Grower Facility or a Cannabis Infuser Facility, or both, subject to the requirements of State law, zoning requirements and the special use criteria within this ordinance.

Not applicable

- x. Additional conditions may be imposed as part of the special use approval to provide for compatibility with adjacent uses and mitigate potential impacts from the dispensing operation.

Not applicable

- xi. The following items shall be submitted as part of the special use request:

- a. A plan for disposal of any cannabis or byproducts that are not sold to a purchaser or registered qualifying patient or caregiver in a manner that protects any portion thereof from being possessed or ingested by any person or animal and shall abide by applicable state or local regulations.
- b. A security plan that includes facility access controls, surveillance systems, on-site security personnel, and other security measures required by state or local regulations.
- c. A copy of the operating procedures adopted in compliance with state statutes. Said operations procedures should include provisions with minimum requirements for facility employees or volunteers (paid or unpaid) including individuals must be at least 21 years of age and must pass a criminal background having not been convicted of a felony under any federal or state law or having been convicted of a violation of any federal, state or city law concerning the manufacture, possession or sale of controlled substances or alcoholic liquor.

- d. A plan for ventilation of the facility that describes the ventilation systems that will be used to prevent any odor of cannabis off the premises of the business. For cannabis dispensing facilities, such plan shall also include all ventilation systems used to control the environment for the plants and describe how such systems operate with the systems preventing any odor leaving the premises.
- e. The name(s) and location(s) of the offsite cultivation facilities associated with the cannabis dispensary.

This documentation has been submitted to the City.
