SUBJECT:

Consolidation and reorganization of the City's administrative hearing program

PURPOSE:

To establish a unified framework of rules and procedures for the City's administrative hearings, including provisions allowing the hearings to be conducted remotely in light of the COVID-19 pandemic. Adopting this ordinance will allow for a uniform set of procedures to govern all administrative hearings within the City.

BACKGROUND:

Currently, numerous provisions of the City Code call for administrative hearings as the means for adjudicating alleged violations of the Code. Despite the City's frequent use of administrative hearings, there are currently no uniform procedures or parameters set forth within the Code. Additionally, due to the COVID-19 pandemic, allowing the administrative hearings to be conducted remotely when appropriate will provide for a more streamlined, efficient process that is relevant to the current circumstances. The proposed Chapter 3 includes language that makes remote participation possible.

DISCUSSION:

The proposed new Chapter 3 will provide a specific process for nearly all administrative hearings within the City, however hearings involving licenses or permits issued under Chapter 6, the International Building Code model code prepared by the International Code Council, and the National Electrical Code prepared by the National Fire Protection Association that the city has adopted by reference and locally amended will continue to follow their own procedures.

This will benefit both the public and City staff in that the guidelines for administrative hearings are clear and set forth in the City Code. In addition to setting forth clear procedures and guidelines, Chapter 3 will allow for administrative hearings to be conducted remotely, which not only eases the burden on City staff and respondents, but will function as an additional measure to promote social distancing in light of COVID-19. Notably, the proposed ordinance includes opt-out language for those respondents or parties in administrative hearings who are not able to participate remotely or wish to request an in-person hearing.

IMPACT STATEMENT:

The impact on the City is positive in that there will be one, streamlined and clear process for administrative hearings. In addition, City time and resources will be saved by allowing City employees who participate in administrative hearings to do so remotely when possible. The impact on City residents is also positive as there will now be a clear system of procedures for administrative hearings, including the ability to participate remotely if possible.

RECOMMENDATIONS:

That the Council approve this ordinance.
